We are becoming more accessible with our ever-increasing production capacity and our sales points that cross the borders of the country.

As Saloni, we design our own products with our own design team. We are working to produce what is not produced, to eliminate the deficiencies in the furniture industry,

and to lead the trends with our brand new, different and unique designs. Because it is our priority to offer comfort, durability and design all together.

We lead the trends with our brand new, different and unique designs.

We use high-protective and double-layered BC-KSK Doppel cardboard packages for the transportation, packaging and stocking of our products, which are delivered as disassembled

during shipment, and we support the 20 mm empty spaces in the box with styrofoam. In addition, we use L-Kraft for our furniture corners, keeping its protection at the maximum level.
