As Saloni Furniture, we continue on our way with firm and confident steps, with the principle of quality production that we have never compromised for 22 years, a sales policy based on trust and the high efforts of each of our employees. We move forward with a great team that can fully perform their art at every stage of our furniture production. We change the known perception of furniture production by including art and artist in our technical operations in our production processes. In this way, we believe that our brand adds value to the sector. Over 22 years, with over 750 employees and with toushands of furniture we produce we are trying to set our customer satisfaction sustainable and to produce functional and quality products with high design value. We become more accessible with our ever-increasing production capacity and our sales points that cross the borders of the country...

We are becoming more accessible with our ever-increasing production capacity and our sales points that cross the borders of the country.

What makes a piece of furniture good?

A piece of furniture is not just for its appearance: stands out with its practicality, comfort, functionality and its timelessness. Only after these elements are completed, "A good furniture!" definition can be made. Every stage in the story of furniture from production to consumer is the main determinant of the furniture. The starting element of the story of the furniture is the material used.

Good workmanship, quality and materials above the standards determine the sustainability of the furniture and provide a light, comfortable and timeless use. As Saloni, we follow all the stages at all times and ensure coordination with high efficiency so that the furniture designed and processed with our visionary designers and production employees can create an art that is both functional and appealing to the eye. Our designer draws the furniture sketch formed in customers minds so that our users can rest comfortably for years, sit with pleasure and lead a comfortable and happy life with the same furniture even in the coming years. In this way, an inspiring furniture concept that really appeals to everyone is born. Thanks to special technical details, you will find that furniture that is extremely durable, long-lasting and durable. You can understand the importance we give to details in our furniture over the years. Even if you sit on your favorite place on the sofa every day, your comfort will continue at the same level, without any deterioration.

The main wood material we use in all our furniture is plywood. Want to know why? Because plywood is wood: Since it is obtained from the trunk parts of trees such as beech. birch. poplar. exotic and pine. it is 4 times more durable than chipboard and 3 times more resistant than OSB. In addition. plywood wood is a lightweight material that can be transported 40% easier than other wood types.

As Saloni, we owe our quality and sustainability to our production, which we follow within a large system and program from first to last hand. Our quality department, which provides a superior coordination; It systematically performs the input control of the products, the process control and the inspection of every stage of the finalization of the product. Behind of all these processes, there is good teamwork, an innovative furniture understanding that leads and contributes to the sector.

WE DESIGN FURNITURE THAT JUST LOOKS LIKE THE FIRST DAY YOU BOUGHT, WHICH YOU CAN SIT WITH THE SAME COMFORT AFTER LONG YEARS.

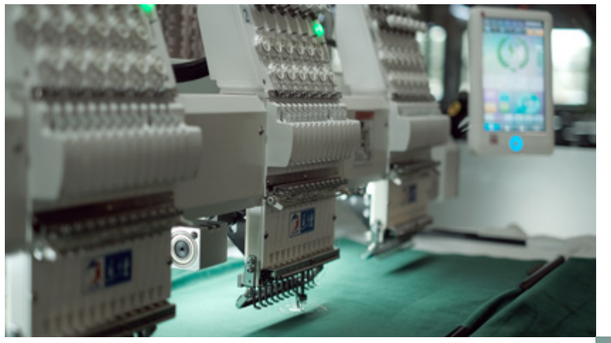
A solid piece of furniture means a long-lasting sofa. As Saloni. we apply notches. not forehead joints. at the joints of our furniture. We use steel zigzag springs and elastic columns to support the foam. We prefer the best quality materials for the spring and joints of the elastic column.

The most important thing that decides how many years the chair will be with you is quality of the materials. All Saloni furniture is designed with first class materials in case of any future occurrence.

Saloni furniture is produced to keep your comfort at the highest level. Cushions designed in different densities and hardness according to the design of the furniture ensure that the furniture is comfortable, aesthetic, robust and durable.

Modern, classic, avant-garde or baroque; multi-coloured, single-coloured or patterned... First class materials are preferred in all fabrics, no matter what kind of seating you choose here at Saloni.

As Saloni, the sewing machines of our furniture fabrics consist of machines with the latest technology, which are constantly renewed. In sewing materials such as thread, zipper, tape, we procure our products from world-renowned quality suppliers.



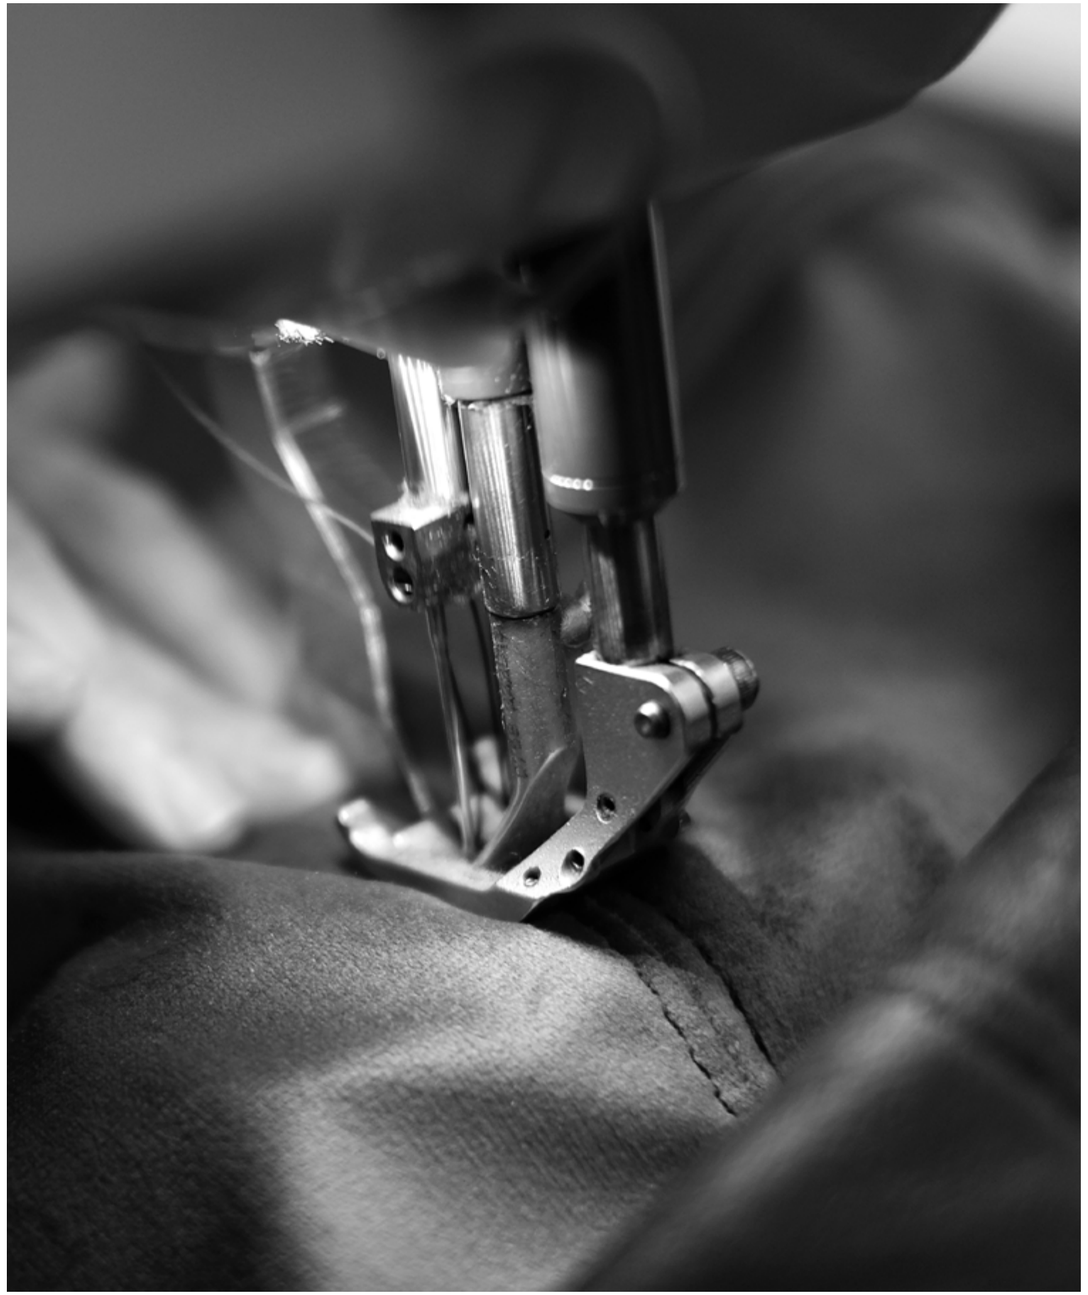
FABRICS DESIGNED WITH THE LATEST TECH MACHINES

The drawings of the fabric patterns and the optimization process required for the fabric to be integrated into the furniture in the best way, are done entirely with computers.

All of the fabrics that are cut with a precision CNC cutting machine under computer control are subjected to quality control just before cutting.

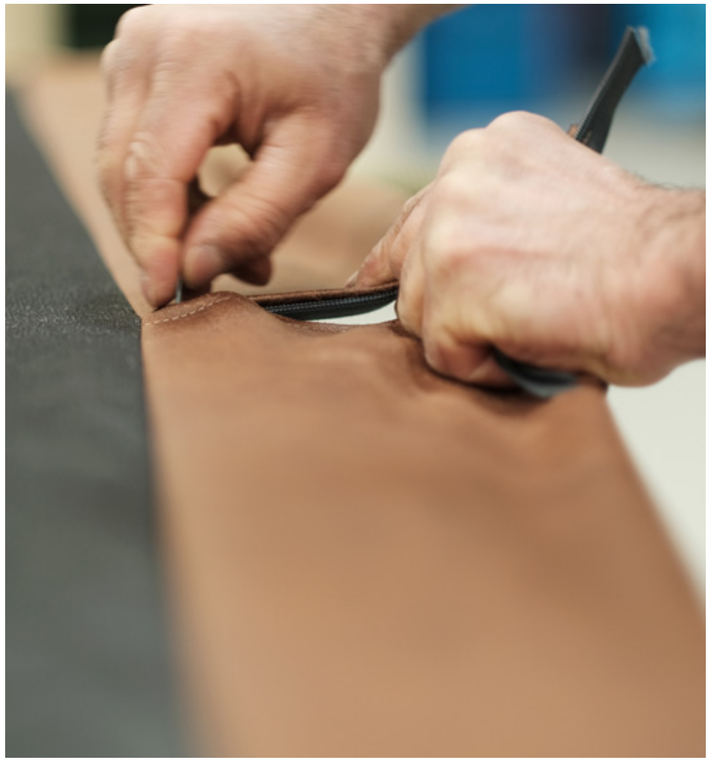
In the upholstery section of our furniture, handwork, a professional perspective and mastery are at the forefront. Good upholstery of the sofa with fabrics: regularity of piping, seams, buttons, etc. If there are accessories such as, it must be reliably sewn. The majority of our furniture masters are experienced masters who have been working for Saloni for a long time, have assimilated Saloni's point of view, and are always open to innovation and difference.

A MASTER STORY: CRAFTS-MANSHIP



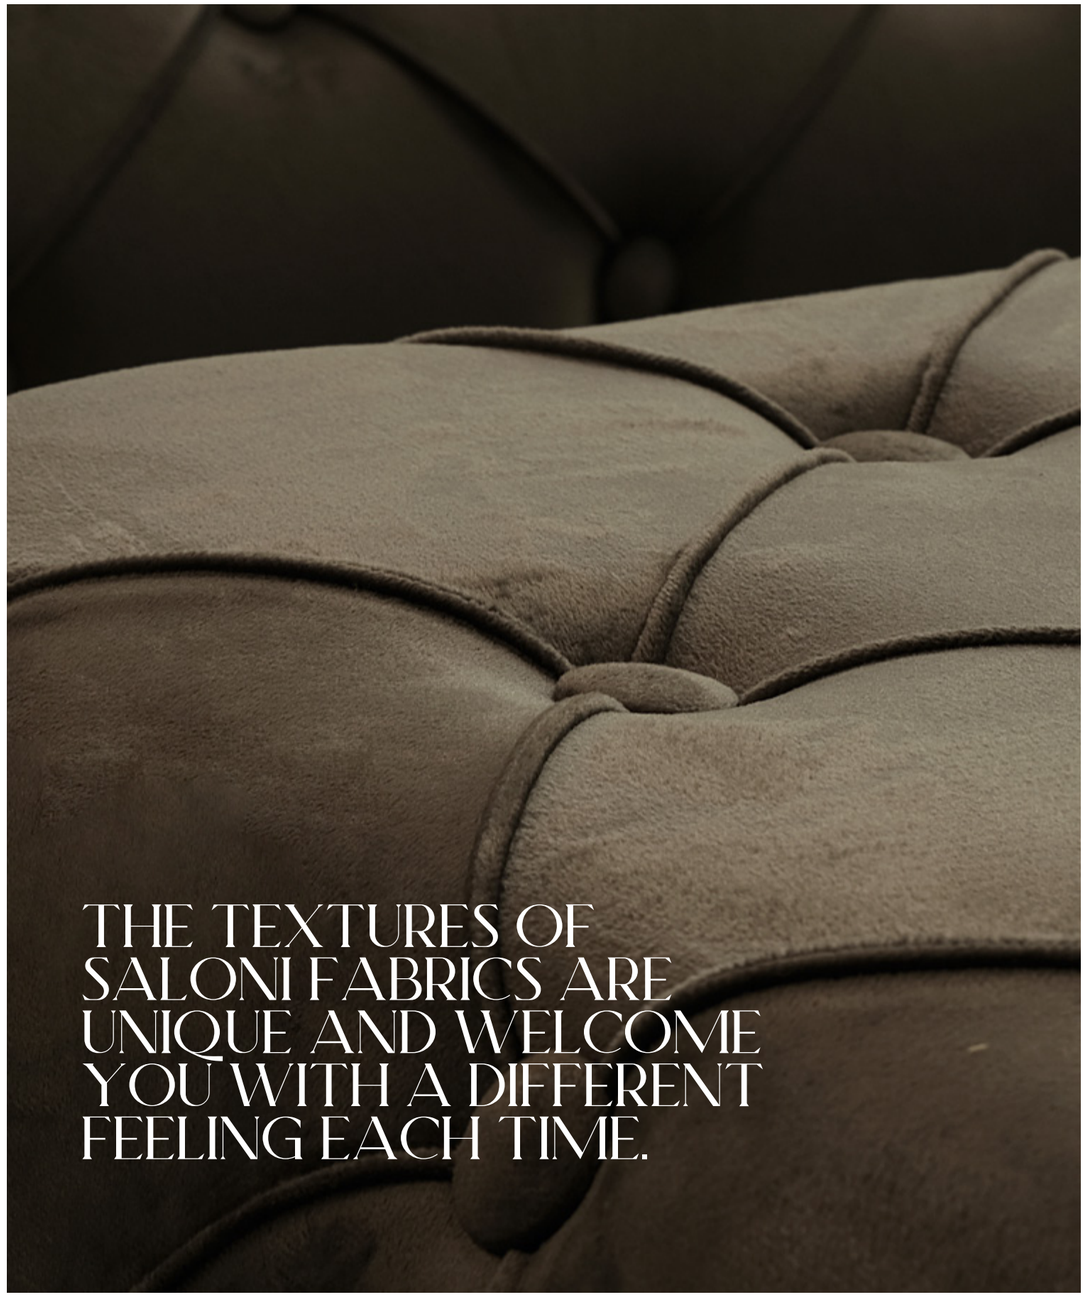
LEATHER ADDS IMPRESSIVENESS TO ITS ENVIRONMENT. AS SALONI, WE USE OUR LEATHER FABRICS ONLY FOR CERTAIN MODELS. THE REASON FOR THIS IS SOME ISSUES CAUSED FROM THE NATURALITY OF LEATHER.

Country, modern, aesthetic...
Leather furniture upholstery exhibits a prestigious, elegant and heavy look. The processing time and the materials used in production determine the quality of the leather. However, the furniture should be designed depending on the type of leather to be used, and the production stages should be planned in accordance with covering the seat with leather.



Our leather products, which have become our customers' favorite pieces, are prepared entirely by hand using special production techniques. The kiln-dried wooden frames using beechwood are indicative of a solid leather seat.
As in our other furniture, we use fiber in the most suitable weights to keep your comfort at the highest level in our leather sofas. The fibers are produced completely new, not from waste materials. With the use of laminated fiber, situations such as potholes and collapses do not occur on the seat surfaces.

Leather quilted buttons are sewn from the seat's own leather and with special handwork. This special sewing, which requires great mastery and effort, will be noticed in your living spaces and create a solid and strong atmosphere.



THE TEXTURES OF SALONI FABRICS ARE UNIQUE AND WELCOME YOU WITH A DIFFERENT FEELING EACH TIME.

WAY TO DURABILITY: LAYERS OF FURNITURE

1. Soft Foam
2. Hard Foam
3. Ist Class Laminated Fiber
4. Superflex Foam
5. HR Foam
6. Felt
7. Plywood

At every stage of production, each of our personnel puts their signature on the product by stamping or affixing a label on the product after the operation. In this way, product traceability is ensured and it is possible to track who carried out the transactions.

As Saloni, the biggest reason why we are one of the leading and innovative companies in the sector is to follow every stage of production. Mechanism, joining methods, accessories etc. Many of our products have patents in areas such as In the assembly of the feet and mechanisms of our furniture, our special design welded nut is applied. In this way, the dowel coming out, tooth grabbing problems, etc. situations are completely eliminated and endurance is set at the maximum level.

Polyurethane-based, non-yellowing, impact and UV-resistant paints with high physical and chemical resistance are used in saloni furniture. Metal legs are painted with healthy electrostatic furnace paint instead of solvent, which is a substance that harmful to health.

As Saloni, we design our own products with our own design team. We are working to produce what is not produced, to eliminate the deficiencies in the furniture industry, and to lead the trends with our brand new, different and unique designs. Because it is our priority to offer comfort, durability and design all together.

We lead the trends with our brand new, different and unique designs.

We use high-protective and double-layered BC-KSK Dopel cardboard packages for the transportation, packaging and stocking of our products, which are delivered as disassembled during shipment, and we support the 20 mm empty spaces in the box with styrofoam. In addition, we use L-Kraft for our furniture corners, keeping its protection at the maximum level.

ALL OF OUR STORES ARE LEADING THE INDUSTRY BASED ON THE FUNDAMENTAL PRINCIPLES THAT WE HAVE SET SINCE THE DAY OF OUR FOUNDATION. WE ACT WITH HIGH ENVIRONMENTAL SENSITIVITY IN ALL OF OUR OPERATIONS, BY OFFERING TO OUR CUSTOMERS DURABLE, LONG LASTING AND HIGH DESIGN VALUE PRODUCTS.

Saloni cares and invests in design. Saloni products are models with high design value and strong aesthetics. Ergonomic details are taken into account in all Saloni models and comfort is at the highest level. We lead the industry in producing innovative and functional products with the engineering techniques we use in the design and production stages. It is one of our basic principles to present our high quality in design. materials and workmanship to our customers at affordable prices.

As Saloni Furniture, we continue on our way with firm and confident steps, with our principle of quality production, our sales policy based on trust and the high efforts of each of our employees.
We change the known perception of furniture production by including art and artist in our technical operations in our production processes. Because we are on our way with a great team that can fully perform the art at every stage of our furniture production.

From the moment you arrive at Saloni, you go through a personalized process to find the furniture of your dreams. Afterwards, the most stylish furniture becomes the most special parts of your living spaces with a unique professionalism.

floran–sa

Floransa is the expression of the word magnificence with its design that contains all the charm of the city. Quilted details. wooden legs. curved details and more create the integrity of its design.

A CHARACTERISTIC INTEGRITY

With a design that embodies all the glamour of the city, Floransa is practically the definition of splendour. Quilted details, wooden legs, curved details and more make up the integrity of its design.

sofa: floransa armchair: lord

sofa: floransa armchair: vals

A SOPHISTICATED EFFECT

Floransa accompanies the places that keep the art alive with its form and color.

CLOSER LOOK TO DESIGN...

The integrity of oval cuts with metal-looking feet creates a balance of design in Monaco. Reinterpreting forms that are a little stranger to the eye. Monaco brings authenticity to interiors with its ostentatious rendering of design.

COLORIUM ARMCHAIR SERIES

No need for a minimalist space to make you feel airiness. The Colorium armchairs are full of personal details and ethnic touches. Some people find the tropical style cartoonish and extravagant (pink flamingos, jungle murals), but tropical decor expresses vitality, life, and nature. The Colorium armchair designs are inspired by the part of the world between the Tropic of Cancer and the Tropic of Capricorn. Since it is spread across many different countries and cultures, its nuances are numerous, varied, and completely individual.

Tropical style is not about strict and fast design rules, but it is a part of freedom and joy. The Tropical decor is vivid, but not pompous. The vibrant tones of the Colorium series represent nobility.

THE ATTRACTIVENESS OF MULTI-PURPOSE DESIGN...

The Saloni poufs have such a broad design and style range that you may have a hard time narrowing down your choices.

Poufs are not an element that you can only rest your legs or sit on. They can be used as a sofa, a coffee table, and much, much more. Saloni poufs, which complement your living spaces, will become the power element of your interior decoration by catching a unity with your joyful moments with their different colors, patterns, and unique details. You can place them anywhere easily and witness their unique usefulness.

Liberate your home and create different spaces for yourself with poufs that always offer a stylish, dynamic, and eye-catching design.

A TREND WITH HIGH DESIGN VALUE: HAZERAN

Hazeran coffee table presents a brilliant, humorous, and retro personality... The weaving of the Hazeran style, which makes living spaces special with its legs that open elegantly and characteristically, is born from a great effort by professional weaving masters. This style allows you to decorate your home with an artistic movement by bringing the motifs that blend both Turkish and Far Eastern cultures into your living spaces.
